

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in Full-Stack Web Development and Data Structures & Algorithms. Proficient in Java, JavaScript, React.js, Node.js, Express.js, SQL, PostgreSQL, and Supabase. Skilled in developing scalable web applications, designing RESTful APIs, and building responsive user interfaces with a passion for solving real-world problems.

EDUCATION

Chitkara University
BEC Computer Science and Engineering

Rajpura, Punjab, India
August 2024 - Present

SKILLS SUMMARY

Programming Languages:	JAVA, SQL
Web Technologies:	React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS
Databases & Backend:	PostgreSQL, Supabase, Prisma ORM, REST APIs, JWT Authentication
Tools & Platforms:	Git, GitHub, VS Code, Postman, Vercel
Soft Skills:	Problem Solving, Analytical Thinking, Team Collaboration, Communication, Adaptability

PROFESSIONAL EXPERIENCE

GRAPHICS EXECUTIVE IEEE-CIET	June 2026 - Present
- Designed promotional graphics, social media creatives, event banners, and branding materials for technical and professional events. - Collaborated with organizing teams to deliver high-quality visual content, ensuring consistent branding and timely execution for multiple campus events.	

PROJECTS

GrabMyShow | JavaScript, HTML5, CSS3, Node.js, Express.js, MongoDB, PostgreSQL, Socket.IO, JWT.

- Developed a full-stack movie ticket booking platform featuring movie browsing, theatre management, real-time seat reservation, AI-powered food ordering, and restaurant table booking.
- Implemented secure JWT authentication, real-time seat synchronization using Socket.IO, scalable REST APIs with Express.js, MongoDB, PostgreSQL, Razorpay payment integration, and backend testing using Jest & Supertest.

JobConnect | React.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, Supabase, Socket.IO

- Developed a full-stack recruitment platform with role-based dashboards for students and recruiters.
- Implemented job applications, interview scheduling, offer letter generation, and email/real-time notifications.
- Built secure REST APIs using Express.js, Prisma, PostgreSQL, JWT authentication, and integrated Supabase for database storage and file management.

MeetHub+ | JavaScript, Node.js, Express.js, Socket.IO, WebRTC, HTML/CSS, AI Integration.

- Developed MeetHub+, a full-stack video conferencing platform with real-time video/audio calling, screen sharing, live chat, AI-powered meeting summaries, and collaborative tools.
- Implemented features including waiting room, host controls, whiteboard, polls, attendance tracking, file sharing, and a responsive user interface.

CERTIFICATIONS

- Introduction to Generative AI Studio
- Software Development Internship Certificate at SkillCraft
- Full Stack Development Internship Certificate at edureka
- Get Started with Databricks for Generative AI
